

MEN'S

Pro Team Managers:

Reserve Host Housing now!

Race dates are
Wednesday to Sunday, May 3 - 7, 2017

Get your host family housing request in EARLY!! You will need to let us know:

- Team Name
- Team Manager name - is that you?
- Team Manager address, email and phone (cell preferably)
- How many riders on your team? (host housing is not available for staff)
- Do any of the riders have pet allergies? (in case your host family has pets)
- Would you be willing to do a school visit?

If you have stayed with a host family previously and would like to request to stay with them again, please let us know. We would prefer to make those contacts on your behalf. Riders, all host housing requests should be coordinated through your team manager.

Following the close of registration, you will receive confirmation whether your team has been accepted to the team roster. We will begin to match teams with host families after that confirmation in the order the request has been made. Few host families can take the whole team, so we will try our best to keep your team as close together as possible.

Once we have assigned your host family, we will send you a confirmation email with all the host family info. It will be your responsibility to coordinate the arrival of your riders directly with your host family. Please note that riders under the age of 18 must be housed with at least one adult rider.

If you don't need host housing, we need your local contact information anyway (local address, telephone and/or email) so that Race Medical, Race Operations, or Team Liaison can contact you during your stay in Redlands.

See you in Redlands! Your Host Housing Coordinators contact info are:
