USAC Officials will be present at the Team Manager's meeting to answer questions regarding the races and racing rules.

On the official race entry form, each team was asked to provide an e-mail address to receive results during the race. This e-mail address will be used unless an update is received at the registration meeting.

A signed USAC Event Release and Redlands Bicycle Classic Authorization for Release of Medical Information forms must be turned in for each rider to receive their bib number.

TEAM MANAGERS MEETING

The Team Manager's meeting will be held in the same location as registration beginning at 3:00 pm on Tuesday, April 8th. Team Managers must be designated during registration.

A **mandatory** driver safety meeting for drivers of caravan vehicles will be held at the same location at 5:30 pm on the same day.

LICENSES

A valid federation license, recognized by USAC, must be presented for all riders, team managers and drivers. Electronic copies are acceptable.

Riders not on UCI teams, who wish to compete for a team other than the one designated on their license, must obtain a written release from their current team; the rider's current team cannot be entered into the race. Foreign riders not on UCI teams must show a Foreign Permission letter from their respective National Federation. Canadian riders are exempt from this requirement so long as they show their license.

Riders with foreign federation licenses who are not listed on a UCI team must provide proof of insurance while racing in the USA during the dates of the Redlands Bicycle Classic. If such proof is not provided, riders must understand that they are not covered by USAC insurance.

IRS REQUIREMENTS

Before the end of the Team Manager's meeting, all teams must report their federal employer ID number or the individual social security number of each rider. (Form W-9 or for foreign riders, Form W8-BEN) All income will be reported to the Internal Revenue Service as "Team" winnings unless social security number of individual to whom prize money will be issued has been furnished. Failure to provide ID numbers will result in 20% being withheld from prize winnings as mandated by the IRS.

TEAM COMPOSITION

Each team is to be comprised of a minimum of FOUR riders and a maximum of EIGHT riders.

The composition of the team must be final and communicated to the Race Organizers no later than three days prior to race start.

The Team Manager is the designated licensed spokesperson for the Team and is the person responsible for filing any protests or appeals. An individual may not manage one team and ride for another. The Team Manager may be one of the riders, provided they are designated as a rider during registration.

INTERVIEWS

Riders must be available for interviews during reasonable hours upon request of a media representative of the Organizing Committee or the Team Liaison.

ASSEMBLY TIME

Riders shall assemble at the designated staging areas at least 15 minutes prior to the scheduled start of each stage. There will be a mandatory sign-in for all stages, except the Time Trial. Sign-in times are listed in the detailed sections for each stage.

AWARDS CEREMONIES

Following the conclusion of each stage, the top three finishers in the stage will be recognized, and the leader in Individual General Classification will be awarded the Yellow Jersey.

The leader in the Climber Competition will be awarded the Climber Jersey at the conclusion of Stages 2, 3 and 5.

The leader in the Sprinter Competition will be awarded the Sprinter Jersey at the conclusion of Stages 1, 2, 3, 4, and 5.

Award winners are to assemble at the Awards tent, next to the podium, at the conclusion of each stage.

CAROLE KING MEMORIAL SPORTSMANSHIP AWARD

Established in 2000, the award honors the memory of Carole King, a founding member of the Redlands Bicycle Classic Organizing Committee. Volunteering and community involvement were two of her strongest beliefs. In her local newspaper column, she encouraged readers to get involved and recognize those who did. As a non-profit organization, the Redlands Bicycle Classic operates under the same principles and relies on hundreds of volunteers each year.

The committee presents this award on the final day of the race to the person who best exemplifies the principles of sportsmanship in cycling and athletic competition. The recipients are people who inspire the Committee to continue producing America's "Premier Stage Race," the Redlands Bicycle Classic.

TECHNICAL REGULATIONS

THE REDLANDS BICYCLE CLASSIC IS GOVERNED BY THE 2025 USAC REGULATIONS AND PENALTY SCALE. INFRINGEMENT OF USAC REGULATIONS BY ANY COMPETITOR, TEAM MANAGER, OR TEAM REPRESENTATIVE SHALL RESULT IN PENALTIES, FINES, DISQUALIFICATION OR REMOVAL FROM RACE.

The 2025 USAC Regulations governing Stage Races are in effect unless specific exceptions are noted in this Technical Guide.

HELMETS

Riders on bicycles **must wear helmets at all times**, between registration and the end of the final stage. This includes **any riding** on public streets. Any reports from city or race officials will cause penalties to be assessed to team G.C. See Special Fines.

NUMBERS

Riders must wear ALL NUMBERS, INCLUDING FRAME NUMBERS provided by the Race Committee in ALL STAGES except the time trial as noted below. Numbers may not be folded, trimmed, or in any way mutilated.

Numbers are to be worn on the outside of clothing and may not be placed inside of pockets or behind any material which reduces their visibility except for the Stage 1 Time Trial where their numbers may be placed in a clear pocket provided the number is unaltered (cut or folded), clearly visible and always readable (1J7(b)).

Numbers MUST be placed as shown below.

Exception: Riders MUST wear at least one number on the center back for the Stage 1 Time Trial.

Stages 3, 4, 5

Stage 2

Riders with numbers that are poorly placed, altered, mutilated, or covered at the finish will be fined per 8A1(k). Riders who abandon the race without turning in a number and notifying officials will also be fined per 8A1(l).

SUPPORT

Neutral Support will be provided by Shimano for all stages. Team

vehicles may accompany the caravan on Stage 2 and 3 only.

CARAVAN VEHICLE RULES

Each team with a vehicle in the caravan will be issued a radio. Team car radios will only be used to receive and must not transmit. There will be a \$500 fine if the radio is not returned to the radio manager immediately after the stage. The Team Manager will be responsible for replacement costs for any lost or damaged radios. Each radio has a replacement cost of \$2000.

Team vehicles will be in Individual GC order. Team cars and neutral service vehicles should be 1.66 meters in height or less, with windows that are not opaque. If non-compliant vehicles are allowed in the caravan, the Chief Referee shall change their position based on vehicle characteristics. Rear mount bicycle racks are not permitted per USAC Rule 3C4(b).

PACING

Pacing or towing by any motorized vehicle is not allowed and will be penalized up to and including immediate disqualification.

FEEDING

Feeding shall occur only in designated Feed Zones with the exception of allowing feeding from the caravan vehicles in Stage 2 and Stage 3 at the discretion of the Chief Referee. All team vehicles must follow the instructions provided in each stage description to reach designated Feed Zones. Non-Caravan team vehicles shall not follow or in any way participate in the race caravan, including going to or returning from designated feed zones. Neutral Feed Support will be available in stages 2, 3, and 5.

FEED ZONE PASSES

Each team will be provided with two credentials for Feed Zone Support personnel. Team personnel must wear a Team Jersey or Team Jacket while in the Feed Zones. Team Support staff will control access to and monitor the Feed Zones. Violations of Feed Zone Regulations will be reported to the Chief Referee and shall result in penalties.

SPECIAL NOTE: Riders must dispose of feeding materials (packages/water bottles) in the Green Zone areas, especially in races where spectators are unlikely to pick up the rider's discarded materials. Green Zone areas will be before and after the Feed Zone on Stages 2 (see Special Fines regarding Stage 2), 3 and 5. Team Managers will ensure that Feed Zone support personnel leave Feed Zone areas clear of debris.

RACE CONDUCT

There will be a rolling enclosure for Stage 2 and for that portion of Stage 5 prior to entering the Sunset Loop. Riders who lose contact with the field and the rolling enclosure must stay to the extreme right and obey all California traffic laws, signs and stoplights when not protected by race-associated police. Specific instructions regarding the rolling enclosures will be given at the Team Manager's meeting and by the Chief Referee prior to the beginning of Stages 2 and 5.

ABANDONING RACE

A rider dropping out of the race shall immediately remove their body number and hand it in to an Official. They shall not cross the

finish line.

CRITERIUMS

RIDERS MAY TAKE ONE FREE LAP FOR EACH LEGITIMATE MISHAP DURING THE CRITERIUM. A "legitimate mishap" is a puncture, breakage of an essential part of the bicycle or involvement in a crash as determined by the race officials. Problems due to insufficient tightening of a component or lack of rider preparation do not qualify for free laps. A "legitimate mishap" is determined by the USAC Official in the Pit Area. A rider granted a free lap will be returned to the race by the USAC Official in the Pit Area. No free laps will be granted outside designated Pit Areas. Bicycle repairs must be done in an official Pit Area. **No free laps will be granted during the last 8km/5 laps of the criterium.** See Rule 3D5.

Primes may be awarded for any group of riders. A bell will sound on the lap preceding the Prime Sprint. There will be no Primes after 3 laps to go. **Primes must be picked up at the end of the stage.**

All riders will finish on the same lap as the leader.
